Via Pietro Maroncelli, 2, 20154 Milano MI, Italy

7/6 - 12/6: 10am - 7pm or by appointment

TROVE 2.0 is the second collaborative exhibition from two of Australia's leading luxury lighting studios, CHRISTOPHER BOOTS, and LOST PROFILE STUDIO.

Exploring themes of natural history, space, and time, both studios will present new collections, building on shared conceptual, material and aesthetic investigations.

The skies tie us together; their cosmic cycles infinite and overlapping

ABOUT CHRISTOPHER BOOTS:

Established 11-11-11, the Christopher Boots studio was founded on material and metaphysical exploration of quartz crystal, birthing a signature aesthetic. Exploring relationships between architecture, symbology and geometry found in nature offers a contemporary interpretation of pattern, structure and symmetry.

ABOUT LOST PROFILE STUDIO:

Conceived by artist, collector, and designer Oliver Wilcox, LOST PROFILE is a creative studio producing contemporary lighting, furniture, hardware, design objects and art. The studio also trades in a particularly bleak dialect of objects and antiques which are sourced in Australia, USA, and Europe.
